1. Eligible dividends are designated as such by the payor. Most dividends paid by public corporations will be eligible dividends. When two dividend rates are indicated, the rate that applies depends on the level of the taxpayer's other income, with the higher rate applying if the taxpayer has no other income.

2. A non-resident will pay tax on taxable income below \$11,038 if the non-resident does not qualify for the federal personal basic tax credit (see page 5). Non-resident rates for interest and dividends apply only in limited cases; generally, interest (other than most interest paid to arm's-length non-residents) and dividends are subject to Part XIII non-resident withholding tax.
